Alternate activities possible

BFD cancelled by IHC vote

By JIM KEMP Pacer News Editor

There will be no BFD this year, although some type of spring quarter activity is being planned by the Inner Hall Council, according to IHC President Ginger Fields.

However, Ms. Fields said no definite plans have been made

will be offered. Such things as a carnival, shows featuring magicians, hypnotists, etc. and events sponsored by organizations are currently

being considered.
BFD stands for Big Free Day and has for the past four years been a music festival program presented by the IH-

Austin Peay Halls the first three years, but was forced into the Fieldhouse last year because of bad weather.

"There is no money going to be spent on bands," Ms. Fields said. "The only way there is going to be live music is if bands will play for some

support on the part of the students as one reason BFD will not be held. Ms. Fields said in order to have BFD as it has been conducted in the past, each residence hall on campus would have to contribute \$300 and all residence halls are not willing to do this

more than any other. Ms Fields said There are already bad feelings because some have given more to the

event in the past than others."

According to Ms Fields, three dorms voted to contribute the money to BFD and three voted not to contribute that amount. She said the halls that were not willing to contribute the \$300 claimed they did not have the money in their budgets and could not raise it, along with "varied other reasons

'I feel there is going to be some dissension from a number of students, but hopefully what we are planning will be acceptable to the vast majority," Ms. Fields

Ms. Fields said she felt there would have been a lot of difficulty with the administration and Safety and Security even if the money to fund the event were available She said no one had told her they could not have BFD as it was staged in the past.

However, Ms. Fields said IHC advisors had told them

BFD must be cleaned up.
"The administration has not said you clean up BFD or you don't have it," Ms. Fields said. "It has been suggested by the IHC advisors that BFD by the Inc. advisors and BrD be cleaned up. They are speaking from an ad-ministrative point of view." Billie Ann Pace, director of women's activities; Harold

Connor, director of minority affairs and Earl Wright assistant director of housing are the advisors.

"IHC is aware of what went on last year and members of IHC think it should be cleaned up," Ms. Fields said. "We don't feel this can be done if we have a BFD as they have

been held in the past."

According to Ms. Fields,
BFD needs to be cleaned up because students feel it is a day which is free from University rules. She said she feels the plans IHC has come out with will clean up BFD by creating a new atmosphere for the event

"I think the Inner Hall Council has thought it through very well and made the decision on the wishes of the Hall Associations," Ms. Pace "It seems more in line with what the residents in the residence halls want, so it is better than what has been offered in the past.

"IHC can't provide entertainment for the entire campus," Ms. Pace said. They can't put their whole budget into one big rock

According to Ms. Pace this year's event will not be a image of the event must get away from being a day free from the rules of University.

The figure of \$300 from each dorm in order to have BFD was based upon what SGA Vice President Art Swann told Steve Vantrease would be needed to book the event Vantrease is acting as a liaison between IHC and SGA because he is more familiar with SGA than I am, Ms Fields said

Swann said with \$300 from each dorm, three or four small groups of pretty good quality could be booked, Vantrease said.

Vantrease said he had not talked to anyone other than Swann about the expense of booking bands for BFD. He also said he had talked to Swann because Swann has handled bookings in the past and is used to doing it. Ms. Fields said the decision to not have BFD was based on what Swann said.

Swann said he arrived at the \$300 figure because that is what SGA would have to have (See page 5, col. 3)

Talking with leaders

Dr. Phillip Watkins answers questions voiced by campus organization presidents and leaders following a banquet Monday night. The Chancellor, Provost and most of the vice chancellors attended the dinner designed to foster more interaction between administrators and campus leaders. The supper was sponsored by the Office of Undergraduate Life.

Radio construction nears; plans, equipment arrive

Special Assignments Editor

Building plans have arrived for the new radio station and construction is expected to begin within the next week.

Most of the plans and

equipment have arrived after six month delay in the project. The new station is to be built in the University Center where the space is now used as a television lounge.

Although plans for air conditioning and electrical wiring have still not arrived, enough plans are here to begin construction on the basic facility, according to Provost Jimmy Trentham.

"We do have enough to get started," Trentham said. have turned the layout over to a local building supply outfit to determine what materials are needed and we should be ready to take bids in a few

One problem with construction will be availability and construction of the metal

"The metal studs will slow it Trentham admitted 'Since it's not the kind of thing building suppliers would keep, we will probably have to get them from either Nashville or Memphis.

'Our people haven't put up metal studs before, either, Trentham continued. "The are very competent, though, and no doubt we will be able to feel their way and do it. The end result will be a much more permanent and steady wall with the studs, though."

Another delay could be

caused by the bidding process. Trentham said. The bids can possibly be taken by phone, but might have to be taken by mail because of the cost of the project. If mailed bids are required, it may be another two weeks before construction

The rest of the plans should be in by the time construction reaches that stage, Trentham

'I hate to say anything, but we expect the rest of the plans to arrive in plenty of time," he said. "That's not a promise,

plant director, had not heard of the plan's arrival when questioned Tuesday, but pledged his staff would work diligently on the station construction. "I haven't heard anything

about the plans, but if they are here and we can get the materials, there should be no problem," he said. "Specific items in the design are not going to be found on the shelf, but we hope to be able to get them quickly.

'Dr. Trentham and Dr Simmons have gone out on a limb to make this possible," Briody said. "The best thanks we could give them is to create a well-run, well-received station. If we are building a showpiece for the com-munications program, it should be first class.

By DAVID ARMSTRONG Pacer Staff Writer

UTM's attempt to regulate campus temperature between 65 and 68 degrees has not been totally successful, according to a study conducted over the past two weeks by The Pacer

As part of the energy con-servation program, a 65 degree goal for campus buildings was set last November

Of five buildings used in the study, the average temperature was 72.3. On six seperate occasions, The Pacer utilized a thermistor thermometer borrowed from the physics lab and conducted the readings at times when few people were around

The Pacer study was con ducted in the EPS building, Humanities, Fine Arts, the Administration Building and Ellington Residence Hall. EPS came closest to the 65 degree goal with an average of 70.6 degrees, obtained in the hallway on the ground floor.

Farthest from the goal was Room 307 of Humanities, which usually has the windows open, with an average temperature of 74.4 degrees

The Humanities Auditorium averaged 73.7 degrees.

heating regulations failing

Temperature study shows

In the other buildings, the Fine Arts lobby registered a 72.6 average, the hall of first floor Administration measured 73 and first floor Ellington averaged 71.4 degrees

"We're trying to bring it down to 65," Will Dickerson, director of the Physical Plant, said explaining some of the are on. Factors like sunlight. wind velocity and the number of people in the room may make it warmer throughout much of the room than the thermostat is registering.

Because of these factors, the temperature in a room may change as much as 10 degrees during the same day, Dickerson said. Some other problems with the control systems are that the ther-

reasons why the test buildings are not operating at the aspired temperature. "A lot of factors are involved.

"The main problem with most of the rooms is probably the control systems. Dickerson said. According to Dickerson, the thermostats are limited because they control only the temperature of the air near the wall they

mostats allow a certain fluctuation of temperature because of the model and

people reset them.
"Usually anyone in the room can adjust the temperature," Dickerson said. "It would be better for no one to touch the thermostat.

Dickerson said maintenance checks the thermostats in all buildings except the dorms (See page 8, col. 6)

New calendar approved

Christmas mini-term slated

year has been finalized.

Thanksgiving holidays, with the interim term scheduled for Dec. 1-19. Under the new calendar, registration for Fall Quarter will be held Sept. 8 and 9 with a special program. and registration for freshmen scheduled for Sept. 3-8.

calendar has met final approval and all now lacking is Edward Boling about the date of commencement exercises Henry Allison, dean of admissions and records, said the calendar, will be entered into

the catalog as it is.
Dr. Norman Campbell, vicechancellor for academic Affairs, said the courses that

interim term have not been decided upon yet, but a survey will be taken to decide what courses the students would want to take.Campbell said that a student should be able to take two, three hour courses or possibly a three hour and a four hour course during the

"I would not be in favor of simply dividing up Quarter," Allison said. could pose instructional problems. It could be difficult to pick after the break. a division will probably not be

Winter Quarteris also being considered, Allison said. This would mean an extra registration,but Allison did not feel this would pose too great a problem.

This is going to boil down to what the students feel gives them the best service. decision should not boil down to what the administration

new calendar is a good idea He said this would give UTM the capability for handling situations that it does not possess now would like to see

something done to make Spring Quarter end earlier Campbell said. "This would give students better summer employment and move Summer Quarter earlier

does not really think this plan is possible right now. Campbell said the courses offered during the mini-term would be comparable to those offered during summer sessions.

Both Campbell and Allison said if the calender was not successful it could be done away with after the first year

According to McGehee, an editorial in the UT Daily Beacon. the student newspaper at Knoxville, recently published an editorial calling for the same calendar UTM is going to implement.

This new calendar offers all sorts of advantages, particularly right now," McGehee said Providing

energy savings and allowing students to get into the Christmas job market were two of the advantages he noted. According to McGehee, placing students on the Christmas job market will compensate for UTM getting out later in the summer than other schools in the area

"I think the interim term will work out well " McGehee said. "It will give professors a chance to teach courses they would not ordinarily have taught It could help people who have failed a course during Fall Quarter because the course will be offered again while it is fresh on that

person's mind.

'It will also give professors a chance to do research and will allow courses involving trips to places such as bat tlefields to be offered.

Allison said if a more serious energy shortage were to come, the new plan would allow for the closing down of an adequate amount of campus buildings during the dead of winter. Hopefully, one

building could be used for teaching the mini-courses, Allison said.
According to Allison, the

mini-courses would probably require class meetings of two hours at a time. The Southern Association of Colleges and Secondary Schools require 30 (See page 8, col. 7)

THE PACER Outlook

McGehee position paper one-sided, exaggerated

Last week's attempt by Chancellor Larry T. McGehee to defend the revamping of the football program is an insult to one's intelligence - a feeble attempt at explaining the situation through exaggeration, oversimplification and one-sideness.

The change may be good for UTM, but the Chancellor has taken the wrong approach with such a tunnel vision rationalization for this major decision. Take a close look at the positions he takes; there are holes in nearly

-It is taken for granted that all 364 athletes involved in sports would abandon ship if there were no football program. Only a small portion of this number play football.

-The Chancellor lumps all these athletes together, apparently forgetting that some of these sports hardly receive any funds as it is. It is the football program that spends over half the athletic budget, not the minor sports

-McGehee speaks of money UTM would not receive "if there were no athletic programs." But no one ever mentioned doing away with the entire spectrum of sports. Most criticism has been directed at one program -- football.

-The Chancellor speaks of the benefits of funding a competitive program in all sports, but fails to note that only football will benefit from the \$70,000 increased budget.

-No thought is given to the possible increase of students if additional money were used to improve certain academic programs or the dozens of students that transfer each year because of insufficient curriculums while money is lost on football.

McGehee leads one to believe that without a football program, there would be a mass exodus. According to this reasoning, every athlete, his brother, sister and girlfriend would leave if the change hadn't been made.

Final judgment on the merits of the athletic decision should be reserved until it is given a chance to work. But at the same time, faculty and students should not be taken as fools. There are legitimate arguments for maintaining a good football program, but it's doubtful that the school would have to shut down if the decision had been different.

One can't be sure whether McGehee is trying to rationalize his decision to the campus or if he has given the arguments so long he has begun to believe them himself.

Academic Senate decision a case of pious paternalism

It was very easy to overlook the piousness of the Academic Senate move to include students on some of its committees. What was meant to seem like a most considerate move was nothing more than a paternal attempt at appeasing some concerned students.

First of all, only certain committees are going to allow students to be members, notably leaving out the Committee on Promotion and Tenure because it isn't "of interest to students." How can they say this when they claim to consider student input and faculty evaluation when making policies?

In addition to this limitation, it will be left up to the individual committees to decide how many students will be added and whether they will be voting or nonvoting members. What could be more ludicrous than this -- to tell students, "We'll give you representation, but we'll decide which committees and we'll decide whether we want you to vote.'

Everything discussed by the Academic Senate affects students eventually, either directly or indirectly. Even decisions on promotion and tenure of faculty members ultimately have a bearing on students. Anything having ramifications on curriculum, faculty or any phase of academic policy touches the student. It just doesn't make sense to completely leave out representation from the largest segment on campus.

Students should demand no less than representation on all committees as well as the Senate itself. SGA should make sure this is accomplished instead of bowing to the whims of a few influential Senate members.

'Marx Brothers' fine fare for starving winter campus

There may be many reasons why the first two Marx Brothers films have been as successful as

It could be because of a better time choice

Students fail career course

With the costs of education going higher each year, a student should pursue every opportunity to reap all its benefits. It is sad when students don't take advantage of a program such as Sunday's career and graduate study conference. Yet almost no one showed up at the conference

The program offered information on career opportunities, graduate and professional schools. Different departments across campus are now beginning to work more in this area But all of this is wasted if no one makes use of because the series was a better selection of material than others in the past. It could be because students are starving for any type of cheap entertainment during the deadness of Winter Quarter. The success of the first two in the series of

Marx films may be due to any one of countless

reasons. But the important thing is that it was

a success -- that students still enjoy good slapstick comedy and are willing to support efforts to bring in entertainment of this nature. Admission price for the film has been 75 cents, with over 200 persons attending each time; almost double the \$85 rental fee per film has been taken in each time. If the success

continues, perhaps program officials can consider a lowering of prices. There are two more movies left in the series giving students the opportunity to view the classic comedy antics of Grouch, Harpo, Chico and Zeppo. It is an opportunity that shouldn't

be passed up. If students are willing to support other film festivals, these ventures are a way to provide good, low-cost entertainment.

Black History-brotherhood

A few of you may know that the week of February 9-15 is Black History Week, a time designated for recognizing the fact that I am Black, my ancestors were Black and that Blacks have contributed to the greatness (questionable) of their country in more than its crime, illiteracy and welfare

But still fewer of you may know that this same week has also been designated as National Brotherhood Week. For those of you who don't know what this means, it means that for one whole week we're "all" going to be we're "all" going to be brothers and love each other. Isn't it nice?

Looking at the world, I cannot see this universal association we refer to as brotherhood. I thought the

perhaps because I was looking in the wrong place, or for the wrong thing, or maybe brotherhood doesn't exist at all. I looked for the answer and after much ado, it oc-curred to me what I was overlooking.
The reason I didn't see

brotherhood is simple-everyone is blind to their brother. I almost laughed at my oversight. But then, I wanted to sit down and cry because I realized that if it weren't for this "blind" hateprejudice, I wouldn't have to be recognized as being Black one week out of the year-people would see that I am a person, just a darker brother

They would see also that the people we refer to as brothers" are not aliens--we all live on the same planet examined the universe there was only one Earth.

After having been somewhat exposed to the great educational institutions in our great country, I have been left with the impression that education is enlightenment for the ignorant and the I have also been impressed

with the fact that through education we learn that human life has great value and that all humans are to be equally valued; to be truly educated one must be educated not only in books, but in life and life includes all the colors of the spectrum I took this to mean I shall learn about my red, white, yellow and all other brothers. Maybe I misconceived what my

education was supposed to I cannot adequately express

my urgency in trying to say what I feel when someone says brotherhood--when there is obviously a total lack of iteverywhere. But I do know that if man does not break the chains that hold him to the ground, keep him from reaching his ultimate goal and his spiritual peak, then he will always be bound, whether it be by his conscience or his greed or his malice or his selfcenteredness all shall lead to

eventual destruction. "A man's merit lies in his knowledge and in his deeds, not in his color, faith, race or descent... the true wealth of a nation lies not in its gold or wisdom and in the uprightness

Teacher ethics raises question

To the Editor:

For several years I have had a connection with UTM through a couple of students that I have a great deal of interest in.

I have listened to many

strange reports about some of the activities of instructors and professors. Many of them I discounted out of hand because I know how many students think and feel about their professors, parents, etc. I know that many of the reports that I have gotten are just so much smoke due to the fact that the student was

However, I have kept still about as long as I care to. As a parent I resent the fact that an instructor would show up for a class drunk as a skunk.

I resent the fact that many instructors just fail to show up for class. I resent the fact that many instructors act as if they are doing the students a favor by just allowing them to attend classes.

I am not just another irate parent. Also I realize that when a child leaves home for college the parents should back off and keep silent. Well, I don't happen to agree with that. Not only am I interested in my "students" but I carry a very large tax burden that helps support UTM.

The instructors are being well paid to do a job. They have an obligation to give the students their very best and if their best isn't good enough then someone should take a hard look at them.

I want my two to have the best that UTM has to offer. Now if they don't take advantage of it that is their problem, but I expect an in-structor to be on hand for each class and to be in a position to function, if not as an instructor then as a decent human being.

Now, I don't know what your policy is regarding letters from parents. I have been reading your paper for several years and I haven't noticed any letters from parents. If you had rather not print it, I won't feel slighted.

It's just that I have decided that someone is going to hear me about this situation. Being a member of the "silent majority" I have decided that will be silent no longer.

I thought that I would start protest with your paper and if that doesn't work, I will go some place else.

O. C. Walker Sr.

BFD's demise upsets student

To the Editor:

I'm writing this letter in hopes that you will print it in this week's Pacer. It concerns BFD and I believe it has

Coming from the north (Maryland), anything I say "against" the administration or school system will probably automatically be labeled "radical." That's fine with me as long as something is accomplished.

I heard from G-H's IHC representative that there is no BFD this year. Reason: not all of the dorm's were going to contribute a minimum of \$300. Evidently, they something for nothing.

BFD is as good as the people the dorm has money, use it. But that makes too much sense-we might have a good time.

The projected amount needed for a successful BFD is

\$2400. Twenty-one hundred from the dorms and \$300 from SGA. I say why not charge the some odd students \$1 extra tuition each quarter and set aside \$15,000 for BFD? Everyone I talk to wants a

good or great group for BFDfine. Charge non-UTM students or anyone not affiliated with the school \$2 at the gate and hold a concert in the stadium. If sold out, a total cluding the \$1 fee from students will be collected.

I'm sure many of the people will gripe about the \$1 extra each quarter, but all it means is not going out one night in a year when one knows he or she would spend more than \$3.

If you want the great groups, you need the greenbacks-no brag just fact. \$20,000 will draw almost any group.

It's unfortunate having to force the students' to have a good time-yet stooping to the level of absurdity is the level of absur-realistic answer. Rick Johnson

UTM graduates find jobs despite national problems

Edwards appointed to Board committee

By KAREN FRANKLIN
Pacer Asst. News Editor
Emmett Edwards has been appointed UTM's first representative to the steering committee for the student on the UT Board of Trustees.
The steering committee is an advisory committee to the Board and is composed of five students, one from each UT branch, according to SGA president Mike Faulk.
Edwards will work with UTK's Bill Nolan, the first student on the Board in planning and coordinating student proposals that are presented, according to By KAREN FRANKLIN

Edwards.

Edwards will also be responsible for letting the board know about problems facing UTM students and informing UTM students about action being taken by the board.

"It is a maxing the amount of

"It is amazing the amount of increased interest students have in our educational system," Edwards commented about his new position. "I feel a student on the board will greatly increase the flow of knowledge between the students and board members."

How does a caller get a McCord resident to meet them in the lobby since the intercom

"They can try to get a friend in the lobby to get the person or they can call up on the hall phone," Earl Wright assistant director of housing said.

Wright said he realizes this creates a problem and maintenance has been encouraged to get the intercoms fixed as soon as possible.

Why is the old athletic

why is the old athletic cafeteris not put to some use?
"We are right now making a study on uses for the area," Russell Duncan, director of the University Center said.
"Nothing definite has been decided but it will be utilized."
The area hasn't been used.

The area hasn't been used since athletes began dining in the cafeteria, Duncan said. Why isn't there a graduation

exercise in December for

"We have a relative small number of graduates in December, 'Martha Williams, who is in charge of commencement, said. "We can have a larger and more impressive ceremony in

Once a student has com-pleted his requirements, his transcripts show he has graduated and there should be no job handicaps, Ms. Williams said. The only things

Williams said. The only things the student has to wait for are his diploma and the commencement program.

Why was the Old Gym reserved Sunday night when it was the only inside place where students could play basketball?

The Old Gym was reserved

The Old Gym was reserved for sorority practice for intramural basketball practice, a spokesman for the women's PE department said. The Fieldhouse was closed during the evening as it was open its normal hours from 1 to 6 p.m., James Henson, professor of physical education, said.

Why did The Pacer report that Alpha Gamma Rho fresh-men grades were 2.29 when

men grades were 2.29 when actually they were much higher than that?
The figures were reported in a story about freshmen grades and there was a misunderstanding about off-campus students in that category.
"The 2.29 average applies to all students who are classified as freshmen and reported that they were living in a fraternity house," said Dr. Phillip Watkins, vice chancellor for Watkins, vice chancellor for undergraduate life. "We did not at that time know the averages for individual

fraternities.
"We have since learned that the fourteen freshmen living in the AGR house had an average of 2.71 which is considerably higher than the overall average." Watkins

The AGR's have the only The AGR's have the only approved housing program for freshmen, Watkins said, but the discrepancy between the grades of off campus freshmen and AGR freshmen is probably due to individuals given special permission to live in other fraternity houses and fourth and fifth quarter students that are still academically included in this group.

were in short demand.

Finch said the survey showed only about five percent of the graduates were employed in jobs outside their fields of academic interest.

"It's encouraging during the economic crisis to know that graduates are still finding good jobs," Finch said.

"However, it is my opinion that the employment selectivity procedure will place greater demands on the qualifications of students during the coming months."

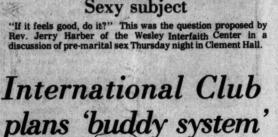

Finch explained UTM has now adopted a program of mandatory registration with the placement office for all seniors which allows them to examine their chosen career in terms of employment opportunities.

portunities.

Placement and career counseling services are available to all students and can give them an objective look at the job market and help determine the academic area for which they are suited, Finch said.

"We should never attempt to force students to choose majors where employment is more easily obtained," Finch said. "But they need to know the direction they can take after leaving the University."

Hall to host

The International Club will present a Coffeehouse at 8 p.m. next Thursday in the dining area adjacent to the UT

Cone.

The purpose of the Coffeehouse is to acquaint the foreign students on campus with the American students and to activate Operation: Friend, according to Andrea Rovinsky, second officer.

Operation: Friend is a buddy system which the International Club hopes to establish, Ms. Rovinsky said. Each foreign student will

Easier A' trend affects UTM

Pacer Copy Editor The national trend of higher grades in college is apparently present at UTM, according to officials who quickly add they have no statistical evidence to

support their assumptions .
"I'm of the opinion that grades are higher," Henry Allison, dean of admissions and records, said. "The question is-how much higher? I am making this observation without factual data, only over-the-counter grades I

"It seems to me the grades here, like across the nation, have increased," said Dr. Phillip Watkins, vice chanfor undergraduate life 'The honor roll is consistently

UTM seems to be one of many higher education institutions affected by the "Easier A" syndrome in-fecting colleges and univer-sities across the country. According to a Nov. 11, 1974 "Time" article, the average grade point of Stanford University undergraduates was 3.5. At Yale, 42 percent of all undergraduated spring-term grades were A's and B's and at the University of Pittsburgh, the average grade of C five years ago had jumped

"It's ridiculous," Eva Balogh, dean of Yale's Morse College, said. "They get a B and they bawl. It takes a man or woman of real integrity to

"One possibility for the higher grade average is the lowering of standards due to the diversity of students going to college," Watkins ventured. "Some years back, it was the open third or it was the upper third or quarter of high school graduates who went to college. Now it seems the majority of graduates attend

college."
According to Watkins, the university instructor of today is in a dilemma.

'A teacher who is sensitive 'A teacher who is sensitive to student's problems is in trouble,' Watkins said. 'Teachers enjoy seeing students achieve, so they make adjustments. Other instructors take the attitude of click or swim. They risk sink or swim. They risk making themselves un-

popular.
"I think the increased grade average erodes the confidence that was formerly placed on grades." Watkins said. "At the same time, I would like to say I think too much emphasis has been placed on grades in the past.

Watkins suggested two

'One possibility might be that teachers, in trying to meet the students' needs, adjust the class level to student expectations. With the more diversified student population, the average class level would drop some, Borderline A-B students would . For those students

would like to believe," Watkins said, "because you maintain standards and

improve teaching." James C. Henson, chairman of the Department of Physical Education and Health said the increased A's may be at-tributed to more intelligent

MU - GRADE REPORT 413-89-0266 ALDIAMOER. COMPUTER SCIENCE Thomas DooBad

who made A's before, the

PAYASITOLOGY Philosophy

ENGUSH

MATH

competition is not as keen.
"Another explanation for the general rise in grades," Watkins continued, "might be many teachers have used their imaginations to develop teaching techniques to allow students to master more of the material.'

Watkins pointed out the increased use of self-paced course, audio-visual aids and greater teacher sensitivity as techniques being used to increase student interest.

'Standards could be just as Watkins said, student performance rising.
"This is the explanation I

one had thought about it.

someone qualified enough or

competent enough to handle it properly," Ms. Fields said. "No one in IHC is capable of

doing this. If there were they

would have already spoken

However, Ms. Fields did say

The possibility of SGA contributing to BFD has not

been completely ruled out according to Swann.

"As far as we are con-cerned, we are leaving it up to

them as to what kind of program they have and then

to give to BFD."

moving forward-better in-formed "Henson said. "I formed," Henson said. "I think we're much smarter than we used to be."

To Henson, the average student coming out of high school seems better prepared.
"They seem to be learning in high school what we once taught in college," he said, then laughed, "maybe that's a reflection on the colleges.

Another view voiced by Henson was the increased "permissive" attitude of

structors.
"I know some of the staff won't agree with this," Henson said, "but one reason for the better grades may be

BFD cancelled by IHC

and the let-up in standardsmaybe unconsciously.
"As parents are more

permissive," Henson said, "so teachers are more permissive--more lenient.'

'There's no denying there is increase in the higher des," Langdon Unger, associate professor of history, said one afternoon over lunch. 'Our records show the in-

"I don't see a lot of difference in the grades being made by the freshmen," Dr. John Eisterhold, associate professor of history, added to Unger's sentiments. "I do know that there are less F's and D's among the upper classmen.

Some reasons given by the two men for the increase are the end of the draft, the in-creasing awareness of students and the change from radical of the 60's to job hunter of the 70's.

"They realize that professional schools are much more competitive," Unger said. "Also, fraternities are

keeping better files."
One theory advanced by
Unger concerning higher
grades was the increasing use

of subjective-type tests.

"In grading subjective, or essay tests," Unger said,
"there is more of a tendency to give the student the benefit

in straight forward objective

"Nationally, I think there is a lowering of standards," Unger continued. "Fewer students are having to take certain courses and you should see some of the 'rinky dink' courses being offered by certain universities.

Allison is teaching a class for the first time in 10 years and says he is very interested in the grade situation.

"Back when I actively taught," he said, "I had the reputation of grading rather toughly. I don't want to be

"I will have the advantage of being able to pull records to establish norms," he continued. "If the norm has changed, I don't want to be behind the established system and grade too roughly.

According to Allison, his office is planning to make a study of UTM grades over the past five years, hopefully to be completed by the end of Winter Quarter No real grade survey has been done since the days students had to sign up for selective service, he said.

"At that time, we had to determine what constituted the upper and lower quartiles. Allison said. then we haven't made the

Allan Rich to present concert

Allan Rich concert scheduled Saturday

music singer Charlie Rich, will appear in concert at 9:30 p.m. Saturday in the University Center Ballroom following the basketball

Admission for the concert will be \$1.50 per person. According to SGA vice-president Art Swann, the 20year-old Rich became available last week when it was learned he was trying to arrange some touring in this area. He has appeared at Arkansas State and several

other area colleges already. "We know we will do fairly well because of the success the dances after ballgames have been having," Swann said.
"Hopefully we will get a mini-

The concert was arranged through Fred Silverstein of Lafayette Booking Agency and will cost SGA \$750. Lafayette is paying \$250 toward advertising.

Swann said there had been consideration of having only mini-concerts this quarter instead of any major concert.

Rich, whose name is actually Charles Allan Rich, Jr., has refused to use his father's name as a stepping stone to success. His album "Allan Rich" has been greeted with favorable reviews and he was featured on the cover of the Mid-South Magazine Jan. 5. He is considered one of the top young songwriters today.

(Continued From Page One) if they were going to put it on, According to Ms. Fields, the

According to Swann, the figure of \$500 from each dorm decision as to whether a dorm would contribute the \$300 was is more conceivable but is not made by the individual hall associations. She said she doesn't know if the opinions of the students were solicited or "With the economic con ditions the way they are it is possible to find some local groups to play for free," Swann said. "I don't feel they

'We did not know until last Thursday that they weren't going to get the \$300 from the dorms," Ms. Fields said.

Ms. Fields said all the will find anyone to travel here and play for free." . Fields said no one from IHC has considered talking to

plans that now exist are tentative and the possibility one other than Swann about the booking of groups because they didn't know who to talk to. She also said no one exists that BFD as it used to be could be voted back in. However, she said it is unlikely that it will be voted back in because of adhad talked to Dean Hitt, who was in charge of booking for last year's BFD, because no ministrative and security booking of groups be looked into by reasons.

According to Ms. Fields if IHC voted to have BFD as they used to, it would still be difficult to carry it out as in

"it would be very difficult to have it as it was in the past because of all of the obvious illegal activities that went on

that IHC will probably look further into the possibility of getting groups for BFD. last year," Ms. Fields said.
"IHC is aware of what went on last year and the members of IHC think it should be cleaned up," Ms. Fields said. "We don't feel this can be done if we have a BFD as they have

been held in the past."

Ms. Fields said she feels the plans IHC has come out with will clean up BFD by creating new atmosphere for the

are going to help them out financially through whatever means we have to raise money," Swann said. "There Chancellor Larry McGehee said he doesn't know if the decision to do away with is no money in the SGA budget According to Swann, it has not been said that SGA will not BFD is right or wrong. McGehee said BFD has been a contribute to BFD financially student activity from the beginning and whatever is held must be something the in any way. He said SGA had asked IHC to come up with a plan and that SGA was going students want.

type of spring activity be held," McGehee said. "Whatever is held needs to have clear lines as to who is sponsoring it and who is responsible for what."

McGehee said some social activities such as BFD have gotten out of control and it has been difficult to find out who is responsible for control. McGehee also said he would be disturbed if there was not re-evaluation of

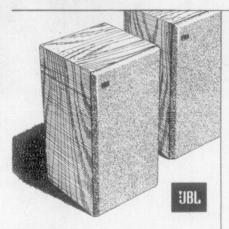

about to get into program planning for students.

When asked about the possibility of some other campus organization spons-oring BFD, Dr. Phillip Watkins, vice chancellor for Undergraduate Life, said he supposes as with any entertainment, any recognized campus organization could sponsor any event within the regulations of the University.

European trip adventurous for students

By DAVID BYRN Pacer Features Editor

Big John's Fat City in the iddle of Amsterdam's Red Light District might be conspend part of Christmas vacation, but two UTM students did it.

Bob Raines, a sophomore from Malesus, and Bill Siler, a junior from Kenton, had no definite plans when they began their European trip. They went mainly where whim or the advice of fellow travelers took them.

Amsterdam was near the end of their itinerary and the first thing they were asked when they got off the train from London was whether they wanted to buy some "hash," Siler said.

'We said 'Not right now' but did he know a place to stay," were just on Siler said. "He just kind of the windows." faded away. A second guy came up and asked if we came up and asked if we needed a place to stay. He gave us directions to a place

his commission.
"The place was called Big
John's Fat City and was right in the middle of the Red Light District," Siler said. "You couldn't get another sex shop on the street.We shared our room with about twenty boys and girls. Someone was always smoking dope in

Amsterdam was a crazy and wild city," he continued.
"It has no national culture. I
didn't feel like I was in Holland. Everyone spoke

American, not English.

"We decided to see the prostitutes one night," Siler said. "So we cut down an alley way and there they were-sitting behind little red lights in big picture windows. We tried not to stare, but they were just on the other side of

While traveling, Raines and Siler utilized youth hostels and the \$100 Interrail train pass which allows a person under

in Luxembourg, it was driz-zling rain," Raines said. "We

just kind of stood around and stared at each other. We were suffering from jet lag, culture shock and homesickness. We had no plans about where we

were going or what we were going to do for the next

They found a hostel and

'When we got off the plane

sleep that night, but I couldn't," Raines said. "So finally, I went out and sat on a railroad track and thought. 'What am I doing over here away from Christmas and all the food and partying?' After one night there, they

headed for Heidelberg on the advice of their new acquaintances. They stayed three days and while there went to Frankfurt to get Interrail passes.

To them, Germany seemed very industralized. Towns ran together and it seemed one could find a 20-story office

countryside, they said.
At the hostel in Heidelberg, they met a girl from New Hampshire, Carla Lavesque, who was traveling alone. She decided to accompany them to

Since they were still un-familiar with such matters, she decided where to go and made all the arrangements while they just followed her around, the UTM travelers said. They went to an opera, a concert and saw the Vienna Boys' Choir.

"At the opera, we had standing room tickets," Siler said. "Everyone was well-dressed except for us transients standing at the back with jeans and backpacks. During intermission, we all sat down on the floor. An usher came back and shouted 'Stand operahouse.' "Raine up. This is not a camping

Raines said he began to feel mfortable for the first time on the trip when the three of them walked through the snowy, wooded courtyard of a Viennesse palace one af-ternoon with no one around.

"I went to a private party with Carla, a Texan and a South African," he reminded himself with a grin. "We walked around outside until a started drinking all the wine and eating the pretzels. The music playing was Crosby, Stills, Nash and Young.

'The Austrian host got mad at us and dumped a bowl of pretzels over his head," Raines said. "After we laughed at him, he shouted 'the only good American is a dead American'. One of us said, 'We'll drink to that' and we kept right on drinking his

After three days, the trio proceeded to Salzburg for three days where they joined several people they had met in Vienna and Heidelberg. "Salzburg was fantastic," Siler said. "Six inches of snow. At the edge of the Alps. It had the best hostel we saw during

our stay. he said toward the mountains," he said. "The view was such that we said nothing for a while, as if anything we said would be trite.

"It dawned on us in Salz-burg that one of the best aspects of the trip was going to be the people traveling like ourselves," Siler said. "They

sign was the backpack. We would stop them and ask about a cheap place to eat or what we should see."

They parted with Ms. Lavesque in Innsbruck. After one day there, they headed for sunny skies and warmer climate -- Rome-- while she set out for Switzerland.

Previously we had ociated with Germans and 'Previously Austrians whose attitudes were businesslike," Raines said. "They were polite but not really friendly. But on the

sisted of a 75 cent bottle of wine, a \$1.50 slab of cheese and an evening spent with four Australians and a girl from

Michigan. On Christmas Day, they left

"At borders, they would check our passports," Raines said. "But a couple of times, they just saw we had U.S. passports and said 'Aw, Americans' and didn't check

bathroom.
"It seemed everyone go

got sick. "At Dover, we had to stand in the cold while waiting at customs," Siler said. "We had to stand all the way on the train to London. And we had to

wait in line two hours to get a

room in a hostel.
"But it was good to hear our language again, to hear people talking on buses and un-derstand what they were talking about," he said. "Most of the traditional

things people see in London were disappointing," he said. "The changing of the guard

was a drag."
After the stopover in Amsterdam, the two students returned to Luxembourg a day early to rest for the flight nome and registration which was only two days away. They splurged and rented a nice room in a hotel.

They noted that in all their travels they did not meet anyone from the South. They said all Americans were from either the West Coast or the Northeast. Raines said he had always

wanted to go to Europe and brought up the subject jokingly to Siler. Before long, they were talking seriously. They financed the trip

"I just had the money saved from two summers's work, Siler, who spent around \$900, said.

worked construction all fall while taking a full load and took out a loan as well," said Raines, who spent around \$800. Siler said the difference was

formation they acquired. "We were treated really

Drug program set by BSA members

By JEFFREY JAMES Pacer Staff Writer
The UTM Black Student

Association will begin a Drug Awareness Program next quarter, according to BSA President Roger Hopson.
The program, to be funded

by BSA, will be open for the entire student body and Martin community, according to Hopson.

'There is no serious drug problem among the black students at UTM, but with the drug pro national scale, the Drug Awareness Program will hopefully prevent a problem in Martin," Hopson said.

The program will probably be incorporated in the black out to a wide range of people.

cultural center, Hopson said, with someone available most of the time to answer questions on drug-related matters. Pamphlets and other information will also be available.

Hopson cited the prevalence of hard drug traffic as both a moral and economic problem and expressed hope the program will help.
"The idea of a Drug
Awareness Program at UTM

arrived from concerned Blacks who felt hard drug traffic is an economic rip-off and a destroyer of valuable black potential," Hopson said. 'This is for people in Martin other than just college students, and we hope to reach

Pat Head, UTK invade Fieldhouse for first time

Pacer Staff Writer

Pat Head will return to her alma mater tomorrow night bringing with her the women's basketball team from UT-Knoxville for competition at 7:30 p.m. in the Fieldhouse. Head led UTM in scoring and rebounding before being

sidelined with a knee injury in her final season. The Knoxville team, now 7-

is considered a strong contender for the state title. Head describes UTK as a run and gun team. They are averaging 82 points per game, with four players in double figures. Gayle Dobson, 5-10, leads the team in scoring with a 15 point average.

"UTK lost to Tennessee Tech Tuesday night after leading the entire game so they will be ready for us," said Lady Pacer Coach Nadine Gearin. "I think we may be a little bit taller but they are stronger on the boards," she said. "We need to play good and not make any mistakes in

order to win.' coached Head throughout her career here at

"Naturally I want her to have a good season, but I would really like to win this game and I'm sure she feels the same way," Gearin said.

Saturday afternoon the Lady Pacers will host Belmont at 3 p.m. in the Fieldhouse. Earlier this season Belmont beat UTM in Nashville, 73-52. 'Belmont has a real good

team," Ms. Gearin said, 'They are fast and a good reboun ding team, I really haven't found their weakness

The Lady Pacers brought home two wins and a loss last weekend in a jamboree at Carbondale, Ill.

Friday night UTM downed Eastern Illinois University 66-43. Glenda Hime led the Lady Pacers in scoring with 17. Also in double figures were Willa Dickerson, 12, and Carol Turner, 10. Hime and Dickerson also led the team in rebounding with 14 and 11.

Saturday morning UTM slipped by Southern Illinois 48-44. The Lady Pacers held a six-point lead at the half, but with 2:33 left to play SIU fought back to tie the game at

UTM held the host team scoreless to go ahead for the win. Betty Volner led the scoring with 15 points, followed by Turner, Starr Hatler and Sharon Brasher with eight rollets. with eight points.

Saturday afternoon Indiana State handed the Lady Pacers a 61-57 defeat in

Wrestlers to travel to SEIWA tourney

hits the road again this weekend as they travel to the SEIWA Tournament Friday

and Saturday at Southern Tech University in Atlanta,

The Pacers will be led in the tournament by Bruce Boggs, Ron Smith and Melvin Turner--all national tourney hopefuls. according to Coach Richard Smith and Boggs, both SEIWA champions their weight class two years ago, are 9-1 in dual action for the year and Turner is 8-1-1. All three wrestlers saw action

UTM's wrestlers, now 7-4 for the year, split a four meet set last weekend. Southern Illinois University bondale downed the Pacers 26-15 in opening weekend competition. It was the second time this season the Pacers

feel to the SIU squad.
In triple dual action in the Southeast Missouri State Quad Meet at Cape Giradeau, Mo., the Pacers bombed the host team SE Missouri 30-9, downed Lincoln 22-16 and fell to Central Missouri State 19-

Newcomb joins old friend

New offensive coordinator, Vester Newcomb, has a lot of respect for head football coach George MacIntyre, much in fact he named his 10 year old son Mac after him.

"I came to UTM for two reasons," Newcomb said.
'First of all I wanted to get back into college coaching and then I wanted to work with George MacIntyre again

"I like college coaching because it does not carry the classroom responsibility that high school does," he said. Newcomb is one of seven

and he is the only one to complete high school. He attributes this to football. Newcomb played college

children from Liberty, Miss.

Miami. He played one year with MacIntyre and in 1966, when he returned to coaching at Miami, he coached two years with him.

'Coach MacIntyre and I have been close friends for several years. We have played and coached together," Newcomb said. "He is a very organized coach. He's building a solid program and he's successful."

Under Newcomb's leadership the Pacers will run

the veer offense in the fall. "The quarterback and the runningbacks are very important to our offense," he said. "The off season workouts are very encouraging and the attitude is

great."
"We don't know anything definite about our quarterback and we probably won't until spring," he added. "We have several who are experienced.

Newcomb sees football as a means to developing self-discipline and respect for themselves.

"As a coach I try to appeal to the men and try to instill a feeling that they should do it because they want to," Newcomb said.

Newcomb said.

Coach Newcomb is living in
Martin with his daughter
Linda, a junior at Martin
Westview, and his son Larry, freshman at UTM. His wife Charleen, and his 10-year old son Mac are still in Blacksburg, Va. where his

wife is teaching school. The Newcomb's would like to find a place in Martin where his children could have a dog and a horse.

"I like horses and have always wanted one," Linda

terson and and Don Elliott

sidelined with five fouls Coach Robert Paynter called

Game show to give paid dates as prizes

By KAREN FRANKLIN Pacer Asst. News Editor

Students can win expense paid dates including movies, dances and dinners at Kappa Alpha Psi's "Dating Game '75" scheduled for 7:30 p.m. Feb. 20 in Rooms 201-202 of the University Center.

"Dating Game '75" will be

played similar to the television program Kappa Alpha Psi President, Arthur Boykin said. Three matches will be played with two women and one gentleman involved in each match.

Contestants will be chosen from audience members who wish to participate, Boykin

There will be a 50 cent admission charge for the game with all proceeds going to the Easter Seal Center.

This is only one of many service activities Kappa Alpha Psi performs, Boykin said. The fraternity is doing repair work at the Happy House Day Care Center and began a counseling program Fall Quarter for local high school seniors to help them decide what to do after graduation.

BA language requirements facing possible reduction

By KAREN FRANKLIN

Pacer Asst. News Editor An ad-hoc Liberal Arts committee approved a proposal Tuesday which recommends lowering the Bachelor of Arts Language requirements to two years.

The proposal, which calls for 12 hours of foreign language the first year and nine hours of foreign language or literature in translation the pecond year, was proposed by Frank Windham,

Dr. Frank Windham, associate professor of English, at last week's committee meeting.

The proposal will be recommended to the Liberal Arts Curriculum Committee their specing. at their Spring meeting, Bill Austin, the ad-hoc committee

secretary said.
A report on the committee's decision will also be presented at the next meeting of the ad hoc committee for those members not present.

"What we want is a proposal the Liberal Arts Curriculum Committee will support,"

The Committee is also recommending the Liberal Arts Curriculum Committee consider Computer Science as a second year foreign language option and the reduction of the laboratory

science requirements.

An amended proposal presented by Goetz Scifert, instructor of modern foreign languages, calling for 15 hours

Volunteer service workers being sought by University

A Volunteer Service Bureau Committee has been formed to place persons interested in doing volunteer work with campus and community organizations needing their services, according to Donald G. Sexton, director of men's activities and Bureau

chairman.
The Volunteer Service Bureau Committee's 16 members include faculty, students and members of the community, Sexton said.

"The students on the Volunteer Service Bureau Committee are to work with me as a clearinghouse for persons seeking volunteer jobs,'' Sexton said. The Bureau will find out what agencies or departments need volunteer help and place students with them, Sexton explained.

"I am sending out a letter to

people not directly connected

to the University will attend this program," she said. "It is

everyone who produces or deals in food."

important to farmers,

faculty requesting a list of worthwhile services and projects," Sexton said. "The Bureau will in turn, recommend the projects to students and organizations interested in doing volunteer work.

"We are just now getting publicity out and we will be placing people in the next week or two," Sexton said. A few agencies have already

volunteer help and the Bureau will contact more agencies as the number of students seeking volunteer work increase, Sexton said.

individuals organizations interested in doing volunteer work should call 587-7213 or 7214 or go by the Director of Men's Activities Office in Cooper Hall.

Genesis Law slated for joint discussion

A discussion of the controversial 1973 "Genesis law" will be presented by Dr. Charles Ogilvie, associate professor of history, and Richard Chesteen, assistant professor of political science at 7:30 p.m. Feb. 20 in Room 201-202 of the University

The "Genesis Law," which was passed by the Tennessee legislature almost 50 years after the Scopes Monkey Trial and requires biology texts to give "equal time" to the

Genesis account, will be delved into with a number of questions raised and various positions clarified, according to Lonnie Maness, associate professor of history and event

'This discussion will have

question of academic freedom which should be of interest to every member of the academic community,' Maness said.

Among considerations, Maness said, will be whether the law was motivated by religious bigotry, anti-intellectualism, reaction to campus unrest or demogoguery; was it intended to protect the legitimate civil rights of taxpayers and students; what factors brought about its passage and subsequent failure in the courts; was it constitutional? "When the presentation is

finished, questions will be permitted," he said.

Dr. George Kao, associate professor of political science, will serve as moderator.

Temperature study

and

and the University Center at the beginning of the heating season. His office does not check the latter areas because

they are not in his budget.
"After the initial checks, we usually don't check a room unless we actually get a report," Dickerson said. When we are requested, we go in and try to correct it.

"Now, I don't want everyone in the class to put in a report," Dickerson said "I think the teacher should do it think he's doing sort of a disservice if he doesn't

Another major problem in controlling temperature, Dickerson said, is the temperature is usually higher in interior rooms and halls than in the outer rooms

This is a problem especially in EPS, Fine Arts and Humanities, he said, because the air conditioners in these buildings are supposed to run year round to cool down the interior areas, but are turned

conservation program.

Because of this, the interior may be too warm sometimes when most of the building is at good temperature, Dickerson said.

off this winter as part of the

"If it's 50 degrees or over,

you have to have the heating and air conditioning on to have good control," he said.

The Administration Building is also affected by interior heating so the 73 degree temperature in its hallway was probably due to

this, Dickerson said.
"I would like to have the temperature everywhere between 65-68 degrees," Dickerson said. "We would feel that we had really accomplished something if we could do that."

Christmas mini

(Continued From Page One)

hours of classroom time per quarter for every three of credit offered.

'Under the new calendar we are utilizing some time we have not been utilizing in the past," Allison said.

McGehee said the disadvantage of the old calendar was to go home for Thanksgiving and then come back to face finals after having the short break.

According to Allison, a chain of events resulted in initiation of the new calendar. First there was the need to move back the date of next year's Fall registration because it had crept forward.

It was then discovered some people did not like coming back for a week between Thanksgiving and Christmas holidays so the possibility of the earlier starting date was explored. The earlier starting date meant a five week period during Christmas in which

nothing was being offered at the University, so the interim term idea was adopted. "One of the comple

against the new calendar is chopping off the work time during the summer," Allison said. "We have to put in so much time and it is just a matter of opinion as to which time is the best."
However, Allison said some students like the new calendar

students like the new calendar better because it allows them to get in extra work during Christmas. Also many schools have gone the early semester system and Allison said he thinks UTM can pick up some students by getting the University starting time closer to theirs. closer to theirs.
"Many people want to split

Many people want to split Winter Quarter," Allison said. This would mean getting out for Christmas sometime during the middle of the quarter and picking up and starting again after Christmas vacation is over with This vacation is over with. would also mean starting in August, Allison added
